## Welcome

*We are very pleased to welcome you in Rome*

### **This year we will give the usual emphasis to live cases.**

We will demonstrate what we mean for optimal implantation of a drug eluting stent. Ultimately we believe that this strategy will further improve the safety and performance of these devices.

Live demonstrations will include treatment of adult valvular heart disease, structural heart disease and selected peripheral interventions.

The meeting maintains its format with "State of the Art" lectures given by experts in the field. Lunch and evening symposia fulfil this target.

This year we have again live transmission on Saturday morning in order to maintain a well-balanced distribution of live cases throughout the entire meeting.

More emphasis and expansion are given to those sessions in which attendees can present and discuss cases.

Once again the Meeting will take place in Rome at Ergife Palace Hotel. It combines a comfortable accommodation solution with a large and efficient Congress Centre.

### EBAC Accreditation

The Joint Interventional Meeting JIM 2014 is accredited by the European Board for Accreditation in Cardiology (EBAC) for 16 hours of external CME credits.

Each participant should claim only those hours of credit that have actually been spent in the educational activity.

EBAC works according to the quality standards of the European Accreditation Council for Continuing Medical Education (EACCME), which is an institution of the European Union of Medical Specialists (UEMS).

In compliance with EBAC/EACCME guidelines, all speakers/chairpersons participating in this program have disclosed or indicated potential conflicts of interest which might cause a bias in the presentations. The Organizing Committee/Course Director is responsible for ensuring that all potential conflicts of interest relevant to the Programme are declared to the audience prior to the CME activities.
