**Program updated to
October 4th 2016**

Welcome !

We are very pleased to welcome you in Milan on February 9 - 11, 2017!

The partnership with **TCT/CRF** is still an infusion of new energy to JIM to better deliver a fruitful educational experience to the attendee.

JIM is “The Live Case Meeting” and it will keep this unique characteristic.

We will demonstrate what we mean for optimal implantation of a drug eluting stent and of bioresorbable scaffold in complex coronary lesions.

We believe that this strategy will further improve the safety and performance of these devices.

Live demonstrations will include treatment of adult valvular heart disease, structural heart disease. We will introduce new devices without losing close contact to the daily practice of the busy Interventionist.

The meeting maintains its format with “**State of the Art**” **lectures** given by experts in the field. Lunch symposia fulfill this target.

This year we have again live transmission on Saturday morning (including Milan) in order to maintain a well-balanced distribution of live cases throughout the entire meeting.

More emphasis and expansion are given to those sessions in which attendees can present and discuss cases.

The Meeting will take place in Milan at Milan Marriott Hotel. It combines a comfortable accommodation solution with a large and efficient Congress Centre.

We all look forward to seeing all our friends at JIM 2017
